

TUBES

Vertical Refrigeration Strip

Fudakin™ Vertical Fridge Tubes are a must for every food retailers planned retrofit or new construction. The LR9 is specifically designed to DLC standards as a center and an end vertical door light, while our versatile LR8 is capable of being used in a wide range of applications.

FEATURES

- Outstanding optical design providing efficient light source
- Extruded aluminum with anodized surface treatment helps to create a state-of-the-art-heat sink
- High lumen output is ideal for product display
- Attractive styling and durability
- Wide input voltage for driver, AC100 - 277V
- Suitable for wet locations
- High-efficiency constant voltage (24VDC)
- cETLus and DLC certified
- Available in 5000K CCT
- Contains no mercury

BENEFITS

- Saves up to 60% energy consumption compared to traditional lighting
- Easy installation and maintenance free
- High quality and reliability
- Even light distribution
- Long life

APPLICATIONS

- Widely used in retail supermarkets, convenience stores, fridges and coolers
